CUPE

***Are you concerned about
how your working
conditions might be
affecting you and your
wellbeing?***

IMPORTANT NEW STUDY

Would you be interested in *anonymously* sharing your stories or talking about your concerns or ideas? If so, you might be interested in participating in a new research study. It will involve only a one-time confidential phone interview.

OCHU/CUPE is partnering with University of Windsor researchers, James Brophy and Margaret Keith, to explore the effects of stress, workload, and overtime on the wellbeing of our members in today's strained healthcare system. We want to know how your day-to-day working conditions might be affecting the quality of your work life and personal life and what needs to change.

We very much want to hear from you.

If you are interested in finding out more about the study, we encourage you to contact OCHU/CUPE as soon as possible, as the number of participants will be limited.

For more information about the study, please contact
OCHU/CUPE at: 416-599-0770 or admin@ochu.on.ca
